

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 30. November, 1885.

Sir,

In reply to your queries in relation to more Gold, in addition to the full requisition for Silver, I beg to say that our yield of metal for coinage is somewhat limited by want of capacity for storage, and that we are at this moment making use of your own vault, in the hands of the receiving clerk, Mr H. C. Cochran, pending the regular course of manufacture. We dare not, in view of security, make Ingots beyond the capacity of storage, but were this capacity increased, we might pass much more into the hands of the Coiner, far beyond his capacity to coin, I have reason to believe.

Hon. D. M. Foy,
Superintendent.

Very respectfully
J. A. C. Booth *mdr*
